

# Good to know

Dear Customer,

we have compiled the most important information about your ALDI SUISSE MOBILE product for you. Once it is activated, we will be sending you an SMS with your personal password to log in to [aldi-mobile.ch/account-manager](http://aldi-mobile.ch/account-manager). You will be able to manage your account there around the clock: you can change your personal information, check your current credit balance, or set up your own personal call blocks as needed.

## Blocking and activating premium services

We offer two free block sets for 090x premium-rate numbers, as well as one free block set for SMS and MMS premium services. To set up a block set over the Internet, please go to [aldi-mobile.ch/account-manager](http://aldi-mobile.ch/account-manager).

0906	090x
With this block set, calls to adult content entertainment can no longer be made. You can continue to call helplines or schedule information on 0900 or 0901 numbers.	With this block set, all calls to 090x numbers are generally blocked. This means that calls to medical emergency service numbers, SBB timetable information, televoting and general entertainment, such as horoscopes, chat forums, games, contests, surveys, etc. are no longer possible.
